This pack contains 81 models (including all LOD stages), 27 unique models (as you can see from the table above).

Additional textures for normal, height, spec and opacity maps are included (up to 1024px, mainly 512px). Many objects share the same textures to save texture memory.

Please be aware that foliage consists of **one-sided polygons**. So you need a material that offers **2-sided rendering**. Besides that this material has to support **alpha-testing for transparency** rendering. Alpha-blending would work as well but is more expensive and may produce problems in terms of depth-sorting.
